EMPOWERING FRONTLINE WORKERS TO SUPPORT CHILDREN AND YOUNG PEOPLE AFFECTED BY PARENTAL PROBLEM ALCOHOL AND OTHER DRUG USE

YOU CAN MAKE A DIFFERENCE

OPENING OUR EYES TO HIDDEN HARM

EMPOWERING FRONTLINE WORKERS TO SUPPORT CHILDREN AND YOUNG PEOPLE AFFECTED BY PARENTAL PROBLEM ALCOHOL AND OTHER DRUG USE

Teachers • GPs • Youth Workers • Sports Coaches
Child Care Services • Family Support Services
ACROSS IRELAND AND NORTHERN IRELAND, THOUSANDS OF CHILDREN AND YOUNG PEOPLE ARE LIVING WITH THE IMPACT OF PARENTAL PROBLEM ALCOHOL OR OTHER DRUG USE.

**Children living with parental problem alcohol or other drug use need access to support and advice.**

This impact can have a devastating effect on these children and young people and affect them for the rest of their lives.

**Adults working with these children and young people can make a significant difference if they know how.**

The experience of children and young people living with and impacted by parental problem alcohol and other drug use has come to be known as Hidden Harm. This is because the harm children and young people experience is often hidden, or if seen, is not recognised as harm. As it is not recognised as harm, these children and young people do not get the support they need.

**WHAT WE KNOW ABOUT THE PROBLEM**

Hidden Harm is often concealed by shame, fear and stigma or is not picked up. Therefore, the exact number of children and young people affected by parental problem alcohol and other drug use is not fully known.

The research indicates, at the most conservative estimate, that 1 in 11 children and young people are living in a situation where alcohol or other drug use is an issue.

Given the scale of the problem, it is crucial that we identify and support these children and young people.
HOW CHILDREN AND YOUNG PEOPLE ARE AFFECTED

The range of difficulties for those affected by parental problem alcohol and other drug use varies and can include enduring stress and an unpredictable home environment. Sometimes violence can become the norm in families.

‘I was already, at nine years old, covering up, pretending that life inside our house was as pretty as the outside.’ Katy aged 20.

HOW CAN I RECOGNISE IF A CHILD OR YOUNG PERSON IS BEING AFFECTED?

Signs to look out for
Poor school attendance or late arrival · Unkempt / dirty / inadequate clothing · Homework not done · Hungry · Overly tired or poor concentration · Unexplainable failure / over achieving · No money

Behaviours you may observe
Aggression · Getting into trouble · Overly compliant · Excessively vigilant · Seeking approval or affirmation constantly · Withdrawn · Difficulty mixing with other children and making friends · Taking unhealthy risks · Secretive

Emotions you may notice
Anxious · Sad · Angry · Fearful · Embarrassed · Ashamed · Despairing · Hurt · Flat / Low Mood · Numb

Some other things to look out for
Poor self-esteem · Avoidance · Getting upset, expressing strong opinions or bravado when alcohol or drugs is discussed · Failure to get excited about events · Getting upset around holidays and birthdays · Taking responsibility for siblings, parents or others

Young people can have difficulty in developing trusting relationships. Their experience is that adults let them down and they have to do everything, even provide for themselves.
THESE PATTERNS COULD BE RELATED TO A PARENT’S PROBLEMATIC ALCOHOL OR OTHER DRUG USE. BE OPEN TO THE POSSIBILITY THAT THERE MAY BE OTHER EXPLANATIONS FOR THESE PATTERNS. HAVING CONCERNS SHOULD TRIGGER FURTHER EXPLORATION, SEEKING ADVICE AND OFFERING SUPPORT.

It is also important to be aware of parental behaviours. Parents can display a lack of engagement or interest, for example, consistent lack of attendance at parents’ evenings at school. Parents may also show signs of being under the influence or have frequent hangovers.

WHAT HELPS CHILDREN AND YOUNG PEOPLE?

A stable and supportive adult in their lives, especially a parent who does not engage in problematic alcohol or other drug use.

A home high in love, routine, and attention and low in tension, aggression and unpredictability.

Good support from extended family members.

Supportive wider network such as peers, school and community.

Consistent attendance at school.

Birthdays and special occasions are remembered and celebrated.

Promises are kept and adults don’t let children down.

Opportunities to build self-esteem, self-worth and confidence.

Support to develop coping skills and strategies.

Encouragement to believe that they have choices and that they can take some control.

Encouragement to make plans for their future and instilment of a sense of optimism.

‘Most times I’m worried about going home because I don’t know what state she (Mum) would be in... I’m ashamed and sometimes people make fun of me.’
It’s important to remember that resilience is a process not a trait and is open to influence. Adults in the lives of children and young people can strengthen their resilience. You can do this by instilling in a child and a young person a sense that

I HAVE... people in my life that care for me and help me

I AM... a person with inner strengths of confidence, self-esteem, responsibility, autonomy and talent. I am proud of my identity and culture

I CAN... manage emotions, solve problems, stick at things and think things through

MESSAGES CHILDREN AND YOUNG PEOPLE NEED TO HEAR

You are not alone
You are not to blame
You are not betraying anyone by talking about it
You can still have a good life regardless of your parent’s continued drinking or drug taking
There are people who can help you
Your opinion matters

Resilience is defined as the capacity to transcend adversity (Gilligan, 1997).

Coping may not mean being resilient. For some, it may mean doing what you have to do to get by. (Silent Voices, 2012)

An essential element that supports resilience is that a young person chooses how they respond and the support they use.
Identified adult to talk to · Access to pastoral support / school guidance counsellor · Know that other children are affected by their parents’ drinking / drug taking · Access to programmes like breakfast/after school clubs, careers advice and extra curricula activities · The opportunity to play, to have fun, to be a child

WHAT DO I DO IF I AM CONCERNED ABOUT THE CHILD’S SAFETY AND WELLBEING?

The most important thing to do is DO SOMETHING

Some young people will find it very difficult to talk about what is affecting them. One of the most powerful protective factors is for the child to have a trusted adult in their lives. Identify a member of staff who can be there for the child or young person. Build that supportive

FEEDBACK FROM CHILDREN AND YOUNG PEOPLE WHO HAVE BEEN SUPPORTED

“I know that I have to learn to trust people because not everyone is going to let me down.”

“I can talk about my problems more easily now.”

“It made me realise I’ve got plenty of people there for me.”

A SAFE HAVEN

By providing a safe haven for children and young people whose home lives are high in tension, aggression and unpredictability, you can offer them structure which they may lack at home. Such supports include:

 Someone to check they are ok · Somewhere to relax · A quiet place to do homework · Extra support for school work ·

‘I felt sad and angry. I used to cry at night in bed on my own. Because I didn’t like what was happening... I found it hard to sleep at night... family life was hard and lonely.’
relationship and offer practical supports.

Make sure you have a sound working knowledge of your organisation’s child protection policy and talk through your concerns with your manager or your ‘Children First Designated Liaison Person.’ Decide on what is the most appropriate course of action.

Effective treatment and a range of other supports for children and young people are available. If you are concerned that a child or young person is at risk as a result of their parent’s alcohol or other drug use, you should inform your organisation’s child protection and welfare designated person or the relevant statutory bodies.

If you require further information or training in relation to parental problem alcohol or other drug use, there are a number of agencies that can assist (See Contacts below).
